

سلام (قوس) وقوس <قوس> و [قوس]
وهذا قوس حول نص غير عربي (hello) ثم عربي

Here is some mixed *Arabic-* (عربي) and Latin-script. As you can see, Aleph does a very good job mixing *LR* (يسار-يمين) and *RL* (يمين-يسار) texts. Aleph even does a great job breaking Arabic phrases across lines.
(bracket) and <bracket> and [bracket]
