The following text is on page 52 of xml-mkiv.pdf:

`\xmlinclusion{...}`

returns the file where the node comes from

Follows the test of this claim:

**Start test**

`\xmlinclusion{#1} ==> ""`

node TEST

**End test**

```
<?xml version="1.0" encoding="UTF-8"?>
```

```
<root>
```

```
  <test>node TEST</test>
```

```
</root>
